

Profile of nuclear radiation detector

Features

1. Fashionable and portable design with aluminum alloy shell;
2. High sensitivity Geiger-Mueller counter tube sensor;
3. Showing real-time, average, max value and historical value chart;
4. Sound +flash +vibration multiple alarms and adjustable threshold;
5. Simple operation and clear screen;

Technical Data

Detector	48mm Geiger counter tube
Measuring range	Dose rate:0.08uSv/h~10mSv/h
Reaction speed	React within 10s and get stable values in 2 mins
Refresh frequency	1 second each time
Resolution	0.01uSv/h
Working environment	-10~50°C; humidity <95%RH without condensation
Battery capacity	400mah

Packaging

Parts list for standard packing

Parts Name	Quantity
Detector	1
User Manual	1
Charging Cable	1

Weight for each unit:120g;

Dimension for each unit:14.2 *7.5*3.5cm;

100 Pcs per carton;

Weight for each carton:13kg;

Dimension for each carton:35*39.5*30cm;
